

Clean Energy Hike Delaware Water Gap!

Strap on your boots and let's go for a hike in support of clean energy.

From the top of Mt. Minsi you will have breathtaking views of the Water Gap and the beautiful Wild and Scenic Delaware River.

Along the way, you will learn how you can help on important energy issues, such as the Marcellus Shale natural gas drilling, the nearby coal fired power plant, and the proposed site of the 195 foot-tall Susquehanna-Roseland high power transmission lines.

Please register with Delaware Riverkeeper Network.

**April 9, 2011, Saturday
10AM-2PM**

Rain date – April 10th

- Hike begins at the Mt. Minsi/Lake Lenape parking area off Rt. 611 and Mountain Rd. in the Village of Delaware Water Gap, PA.
- **There are no bathroom** facilities at meeting area or along trail. Recommend you stop before arrival.
- The Top of Mt. Minsi hike is a 5.1 roundtrip. Moderate. Uphill, couple steep rocky areas; a rock hop over a small stream. Shorter, less strenuous hike option possible based on need.
- **Participants are invited** back to the quaint Village Farmer and Bakery (13 Broad St.) for a refreshing snack, drink and share stories.
- **Dress for the weather**, including sturdy shoes. Bring lunch/snack, water, camera and binoculars.
- **Up-coming events:** June 4, 2011 Delaware River Canoe Trip from Kittatinny Point to Columbia.
