

National Trails Day:

Hike to Save The Delaware Water Gap!

The Appalachian Trail and the Delaware Water Gap are in trouble. PSE&G has applied to the National Park to replace the existing 80' tall power lines with 195' monster towers.

The construction and final height of these towers will ruin the views and natural resources of this Wild and Scenic area.

Their proposal is much greater than what is needed for electricity reliability. This project is motivated by greed not need.

For months residents have fought this project at every turn.

Please join us on a 3 mile hike in a pristine and prehistoric setting. We'll view the existing transmission lines, talk about the impacts, and inspire each other to continue protecting our homes and our environment.

**Leave the Appalachian Trail
Unplugged!**

To RSVP please call 609.259.3734 or
Email: Leona@pineypaddlers.com

**Saturday
June 5, 2010**

10:00am – Meet at
Millbrook Village, NJ

During our lunch break at Watergate we'll talk about what each of us can do to protect our National Park! Bring lunch, snacks and water for the day.

After lunch we continue along 3 miles to Van Campens Falls

*** Car transport back to start will be organized prior to leaving Millbrook Village

Upcoming Events:

May 22, Tour of Historical Homes impacted by the Lines

July 31, Canoe/Kayak the Delaware Water Gap from Bushkill Falls to Smithfield Beach Access

Directions to Millbrook Village:

- Take Rt. 80 to exit 12. Take ramp and then make a right onto Rt. 521, stay on 521 all the way to Rt. 94.
- Make a left onto Rt. 94.
- At traffic light make a right onto Bridge Street.
- Continue straight. Turn right at High Street.
- Continue on to Rt. 602 Millbrook Road.
- Take Millbrook road all the way up to the park until you see Millbrook Village.
- You cannot miss it.
- There will be parking to the right.
